

Subject: Invitation for Collaboration

To

The Head of the Institution

Dear Sir/Madam,

Scholar Lab Foundation is a section 8 Not For Profit organization, founded by alumni of IIT Kharagpur. It has realized that there is a significant opportunity to contribute in developing the ecosystem for product development. The foundation wants to develop it through an institutional framework where students and faculty contribute to develop a sustainable product.

The objectives are to:

- Collect ideas from scholars, institutions and every part of the society to develop a product involving the ideator in the development with the technology support from IITs and other premier Institutions.
- Engage an Institute to develop the ideated product.
- Fund the entire development process so that Institutes are not burdened at all.
- Develop a product development process which becomes an academic curriculum to offer a certification or a diploma course.
- Share the IP with the institute for their contribution through their infrastructure and resources.

The following areas are under consideration for developing products

- Health and Wellbeing
- Education and Livelihood
- Energy and Power
- Water and Environment

The Scholar Lab already entered into an MOU with IIT Jodhpur on 6th January,2021 for collaboration in translational research.

The foundation is inviting the interested institute to be part of this process. For further discussion please write to us in
